

Richard J. Schreck
Virginia Asphalt Association, Inc.
Executive Vice President
6900 Patterson Avenue
Richmond, VA 23226
804-288-3169
rschreck@vaasphalt.com

Richard J. Schreck has spent his entire career in the highway construction business serving for the past twenty-eight years in his current position as Executive Vice President of the Virginia Asphalt Association, a non profit trade association representing the Asphalt Paving Industry in the Commonwealth of Virginia. Prior to joining VAA Richard spent more than five years as Director of Engineering and Environmental Affairs of the Virginia Road and Transportation Builders Association.

Richard is an internationally known expert on HMA mix design, recycling, paving practices, and QC/QA; Stone Matrix Asphalt (SMA), and Warm Mix Asphalt (WMA). Richard's Asphalt expertise and experience have led to his serving as:

- Member of the Federal Highway Administration (FHWA) SMA Technical Working Group (TWG)
- Member of National Cooperative Highway Research Program (NCHRP) SMA Research Panels
- Member of the AAPTTP SMA for Airfields Technical Panel
- Member of the Federal Highway Administration (FHWA) Warm Mix Asphalt (WMA) Technical Working Group (TWG)
- Member of the National Center of Asphalt Technology (NCAT) Steering Committee
- Member of the SHRP A003 Mix Design Technical Advisory Panel
- Member of several National Asphalt Pavement Association (NAPA) Committees, Technical Working Groups, and Task Forces including:
 - SHRP Liaison Committee
 - High Stress Applications Asphalt Technical Working Group (TWG)
 - Asphalt Rubber Task Force
 - Quality Improvement Committee
 - Mix Design Committee
- Co-developer and Instructor VDOT/VAA/FHWA Superpave mix design and asphalt aggregate certification programs
- Led American SMA Study Tours to Germany in 1995 and again in 2003

Before moving to Virginia in 1976, he was Assistant Project Manager and Field Engineer for Moss-Thornton Construction Company of Birmingham, Alabama. As a Field Engineer Richard worked with Moss-Thornton on a variety of projects including the construction of Walt Disney World and the Talladega Raceway. Richard is a native of Alabama and graduate of Auburn University.
