Water

Tamp

Why Use Aquaphalt 4.0?

- Can be installed less than 1" thick
- Permanent, backed by a 3-year warranty
- Environmentally friendly, no VOC's in it at all
- Sets up with water
- Can be installed in below freezing temperatures
- Open to traffic immediately and will be cured by the next day
- No need for large crews or special tools

Trenching Application – Aquaphalt 4.0

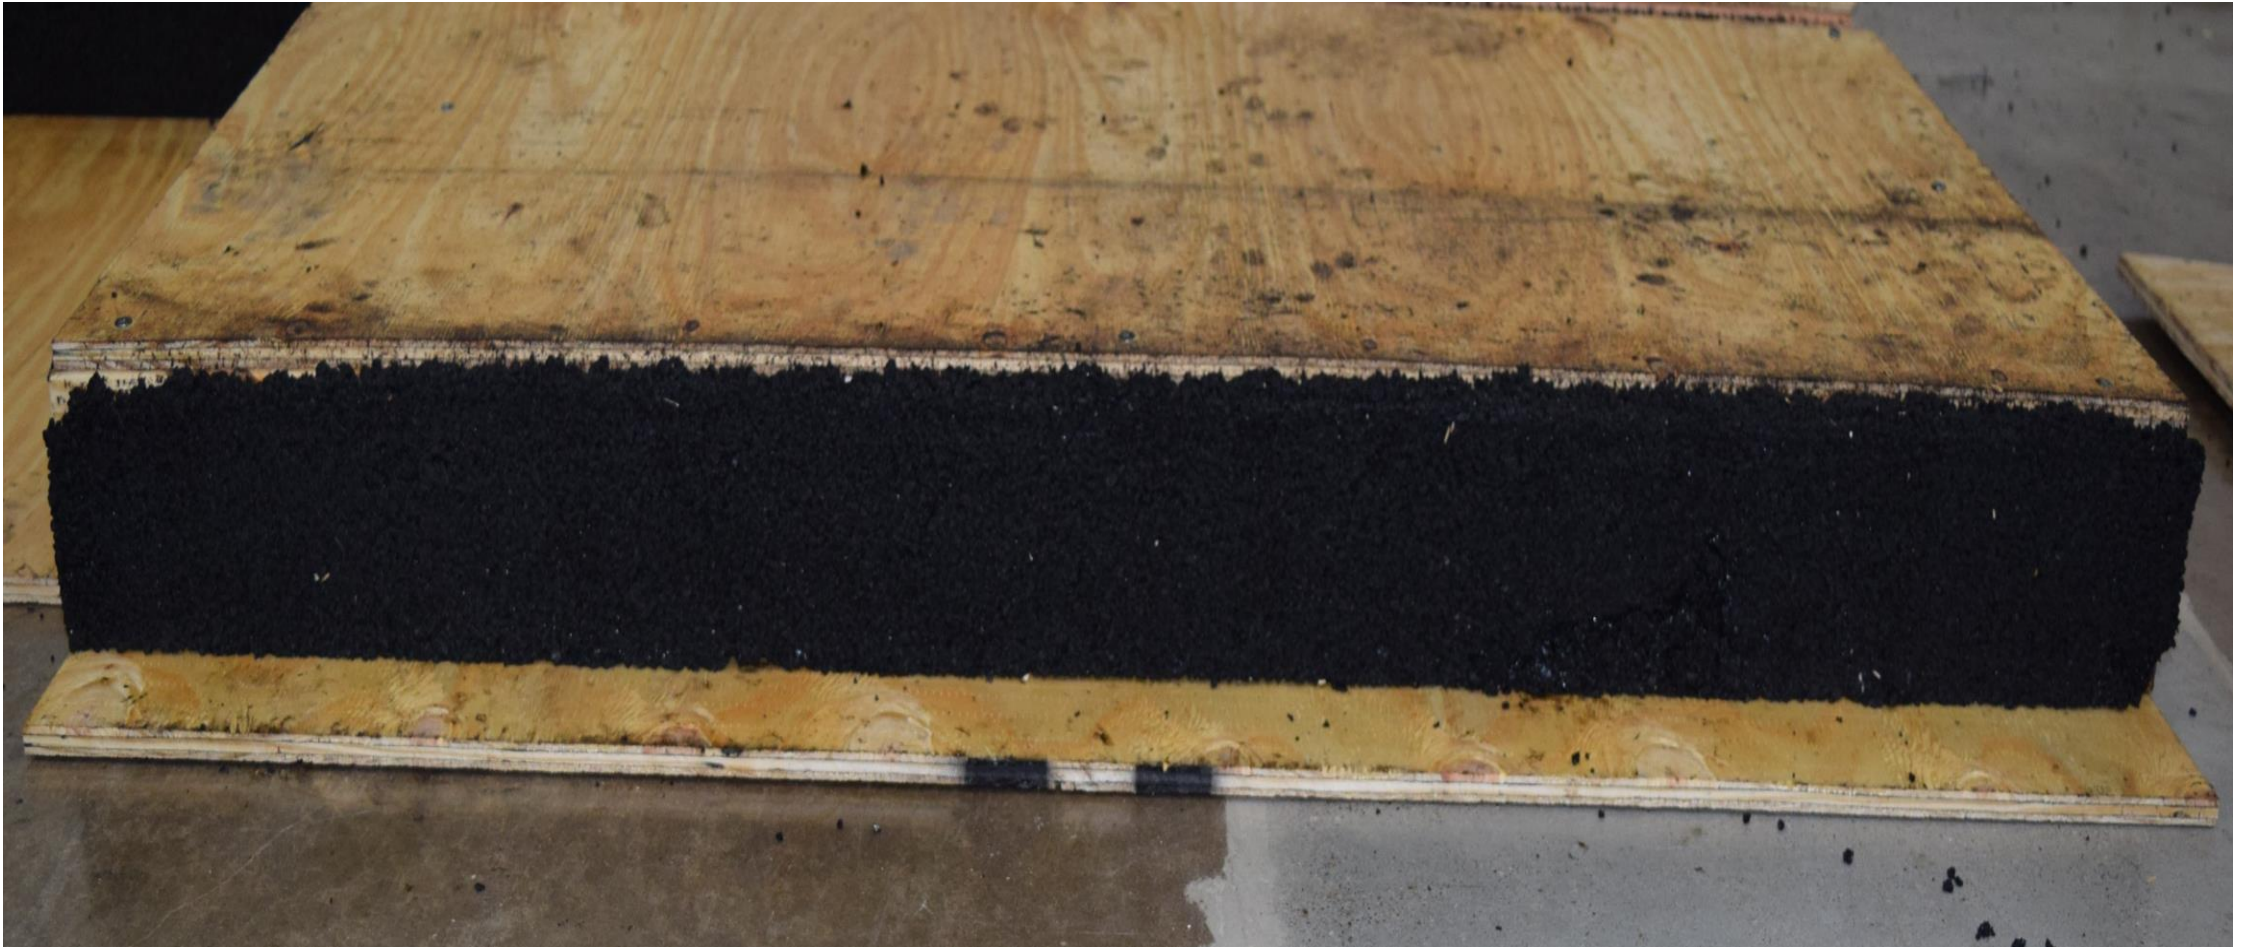

- Organic RAPS Technology
- Petroleum and VOC Free
- Water Activated Plant Based Binding Agent
- Only Organic Repair Material on the Market Designed for Micro and Nano Trench Applications
- 100% Material Passage – ½” Sieve

More Productivity with Less Labor and Equipment

- Cal Trans in Anaheim, CA utilized Aquaphalt 4.0 for this 30 bucket patch
- Cal Trans can do 6 patches a day with Aquaphalt where they can do 3 patches a day with hot asphalt
- Aquaphalt requires 2 guys and 1 truck. Hot asphalt requires more labor and more equipment.
